

POWERFUL VACUUM TANK

Septic Tank • Grease Trap • Sludge • Waste Water Emergencies • EPA Licensed

E&E Waste have recently invested in a 12,000 Litre Tank with a powerful Jurop Vacuum Pump.

This large capacity tank is hook-lift mounted, which means we can operate it with the most flexibility – for example it can be left onsite for a period, then picked up when job is finished.

There are a large range of liquid waste jobs the Pump & Vacuum Tank can handle, including:

- DOMESTIC – septic tanks; grease traps; polluted water; untreated swimming pools
- COMMERCIAL – septic tanks; drain cleaning/unblocking; flooding mishaps; contaminated water/effluent
- HOSPITALITY – portable toilets; toilet blocks; grease traps
- CONSTRUCTION – settling ponds; sediment tanks; excavation/drillers mud; temporary toilet blocks; concrete slurry; footings; trenches; piling operations
- AGRICULTURE – effluent ponds; settling ponds; emptying silos; emptying dams and channels
- INDUSTRIAL – contaminants; concrete slurry; containment traps; refuelling depots; settling ponds; drillers mud
- MUNICIPAL – flooding relief; drain/culvert/water course repair/maintenance; wash bays; silt traps

E&E Waste have purchased Septic Tank Cleaning Services from E J & L G Lee-Koo – Now servicing all existing customers

OUR BUSINESS

E&E Waste is a domestic and commercial waste company with a large fleet of trucks and equipment, established in 1986. We have held the domestic waste contract for Goondiwindi Regional Council since 2002, covering Talwood, Bungunya, Toobeah, Yelarbon, Inglewood, Texas and of course, Goondiwindi.

We provide a diverse range of services across the Regional Council area. At E&E we pride ourselves on providing the highest level of service and attention to detail... In fact you could say, *Service is our Business.*

DOMESTIC WASTE

There is really no job too big or too small as we can supply bins according to your needs.

We can provide one-off pickups of household refuse, such as old appliances or furniture, building materials etc. Of course you may want to look at one of our Steel Bins if there is a significant amount.

FRONT-LIFT BINS

For large quantities of waste, we supply various sized steel bins, depending on what you need.

Front lift bins are designed for all types of commercial and domestic waste in volumes too large for wheelie bins. Of course you may want to look at one of our Hook-lift bins if there is a really amount.

These all-metal industrial bins are constructed for E&E Waste in accordance with relevant Australian Standards and Guidelines, are painted and can be wheeled around easily. They are available in 3 sizes, refer to website for specific dimensions.

- 1.5 Cubic Metres • 3 Cubic Metres • 4.5 Cubic Metres

HOOK-LIFT & SKIP BINS

Designed for all types of commercial and domestic waste such as building sites, household clean ups, green waste, farm waste... virtually anything you want to throw at them.

Skip Bins

Perfect for that medium-sized industrial or on-farm job, our skip bins are built to last and have a capacity starting at 5 Cubic Metres. We currently have these sizes:

- 5 Cubic Metres • 8 Cubic Metres

Hook-lift Bins

These enormous bins have been manufactured to exacting standards and can withstand quite a beating, with a capacity starting at 16 Cubic Metres. We currently have these sizes:

- 16 Cubic Metres • 20 Cubic Metres • 30 Cubic Metres

CRANE TRUCK HIRE

Our Volvo 8 wheeler SL10 Crane Truck has a reputation for being able to haul some pretty big loads. With its 6 tonne lifting power, 12 tonne carrying capacity and 9 metre body, there's not much it can't take.

We regularly carry cotton tilege equipment, irrigation pumps, shipping containers, tractors and other farm implements.

Available Within 24 hrs

If you're not sure and have something large that needs moving, we'll do our best to accomodate it. The Crane Truck can be there within 24 hours or sooner in some cases, so give us a call.

FRONT-END LOADER HIRE

Our Front-end Loader is ideal when there has been a spill or your waste management gets out of control, or you simply have a larger than usual loading task.

With 250 horsepower and 3 tonne capacity, there is not much the SDLG Articulated Front-end Loader cannot handle. This powerful machine has various buckets and attachments and can tackle anything from shipping containers and cotton bails to loose items and solid waste.

CONTAINER SALES

E&E Waste supply a multitude of new and used shipping containers. These containers have a variety of uses and are an excellent solution for short or long term storage for both domestic and commercial purposes, a quick extension to your shed or secure worksite lock-up.

20' & 40' Units are available in a number of formats, including General Purpose Units, Insulated Units and Flat racks. All containers are weather and rodent proof.

Shipping Container Grades

The price of a shipping container varies depending on their condition. Units are normally classed as follows:

New	One way Export Unit made within last 12 months
A Grade	Export or Food Quality Units
B Grade	General Purpose Units Suitable for Household Goods
C Grade	Suitable for Machinery, Tools etc

Call us today to get a good deal on a quality new or used shipping container, delivered to you.

CONTAINER HIRE

E&E Waste have a selection of quality shipping containers, as outlined above, for hire on a weekly or monthly basis. We deliver and pick-up anywhere in the Goondiwindi Regional area.

If you have a specific need, don't hesitate to call and we'll do our best to find a solution.
