

Health & Safety Policy

Effective Date: 12 December 2019

Purpose

It is the policy of E&E Waste Pty Ltd (E&E Waste) to ensure that all company activities are performed in a manner that protects the health and safety of employees, contractors and the general public in accordance with ISO45001:2018.

Principles

E&E Waste continually strives to improve its safety performance, minimise risk to health and achieve Zero Harm.

E&E Waste will seek to comply with all applicable laws, regulations and other industry standards, codes of practice and guidelines relating to occupational health and safety.

E&E Waste is committed to:

- Achieving Zero Harm and ensuring that health and safety information including this policy is communicated and available to all employees and contractors and is available to other interested parties
- Providing healthy and safe work areas, safe equipment and systems of work for employees and contractors
- Training employees and contractors in health and safety issues that affect their work
- Regularly reviewing work areas and practices to improve health and safety to ensure compliance with statutory requirements
- Consulting employees on decision making that impacts on workplace health and safety
- Holding all levels of Management accountable for health and safety matters in their area of responsibility, while at the same time recognising that each employee has direct responsibility to follow practices which ensure their own health and safety and that of their fellow employees
- Monitoring and reviewing its health and safety performance against established measurable targets; and
- Providing health and safety advice on our products to customers and the public.

A healthy and safe work environment is fundamental to the company's successful business operations. E&E Waste recognises improved health and safety performance will be achieved by management and employees working together to develop safe systems and maintaining a safe work place.

Jaime McGuire

Operations Manager
